WESTERN STATES BOILERMAKERS APPRENTICESHIP COMMITTEE

INTRODUCTION

This document is an apprenticeship program standard. Apprenticeship program standards govern how an apprenticeship works and have specific requirements. This document will explain the requirements.

The director of the Department of Labor and Industries (L&I) appoints the Washington State Apprenticeship and Training Council (WSATC) to regulate apprenticeship program standards. The director appoints and deputizes an assistant director to be known as the supervisor of apprenticeship who oversees administrative functions through the apprenticeship section at the department.

The WSATC is the sole regulatory body for apprenticeship standards in Washington. It approves, administers, and enforces apprenticeship standards, and recognizes apprentices when either registered with L&I's apprenticeship section, or under the terms and conditions of a reciprocal agreement. WSATC also must approve any changes to apprenticeship program standards.

Apprenticeship programs have sponsors. A sponsor operates an apprenticeship program and declares their purpose and policy herein to establish an organized system of registered apprenticeship education and training. The sponsor recognizes WSATC authority to regulate and will submit a revision request to the WSATC when making changes to an apprenticeship program standard.

Apprenticeships are governed by federal law (29 U.S.C 50), federal regulations (29 CFR Part 29 & 30), state law (49.04 RCW) and administrative rules (WAC 296-05). These standards conform to all of the above and are read together with federal and state laws and rules.

Standards are changed with WSATC approval. Changes are binding on apprentices, sponsors, training agents, and anyone else working under an agreement governed by the standards. Sponsors may have to maintain additional information as supplemental to these standards. When a standard is changed, sponsors are required to notify apprentices and training agents. If changes in federal or state law make any part of these standards illegal, the remaining parts are still valid and remain in force. Only the part made illegal by changes in law is invalid. L&I and the WSATC may cooperate to make corrections to the standards if necessary to administer the standards.

Sections of these standards identified as bold "insert text" fields are specific to the individual program standards and may be modified by a sponsor submitting a revised standard for approval by the WSATC. All other sections of these standards are boilerplate and may only be modified by the WSATC. See WAC 296-05-003 for the definitions necessary for use with these standards.

Sponsor Introductory Statement (Required):

These Western States Area Apprenticeship Standards have as their objective the training of Boilermakers, skilled in all phases of the erection and repair Industry.

These Standards have been developed by the construction locals of the International Brotherhood of Boilermakers, Iron Ship Builders, Blacksmiths, forgers and helpers with jurisdiction in the Western States Area and the employers signatory to the articles of

WESTERN STATES BOILERMAKERS APPRENTICESHIP COMMITTEE

agreement covering the Western States Area and assisted by the Department of Labor & Industries, Apprenticeship and Training Section.

I. GEOGRAPHIC AREA COVERED:

The sponsor must train inside the area covered by these standards. If the sponsor wants to train outside the area covered by these standards, the sponsor must enter a portability agreement with a sponsor outside the area, and provide evidence of such an agreement for compliance purposes. Portability agreements permit training agents to use apprentices outside the area covered by the standards. Portability agreements are governed by WAC 296-05-303(4)(g).

The Geographical area covered by these Standards shall be the states of Washington, Oregon, California, Idaho, Utah, Nevada, Arizona, Alaska, New Mexico, Montana, Wyoming, Hawaii and Colorado. Applicants and apprentices: Please note that while the State of Washington has no responsibility or authority in the states of Oregon, California, Idaho, Utah, Nevada, Arizona, Alaska, New Mexico, Montana, Wyoming, Hawaii, and Colorado, the JATC will apply the same standards and guidelines to apprentices registered in the program while working in the state that applies.

II. MINIMUM QUALIFICATIONS:

Minimum qualifications must be clearly stated and applied in a nondiscriminatory manner [see WAC 296-05-316(17)].

Age: All applicants shall be at least eighteen (18) years of age. Applicants are required to submit reliable proof of age.

Education: Applicants shall be high school graduates or provide proof of equivalent educational attainment, such as successful completion of High School Equivalency Tests. Applicant must provide official documentation of completing high school or equivalent upon indenturement.

Applicants must submit a DD-214 to verify military training and/or experience if they are a veteran and wish to receive consideration for such training/experience.

Physical: Applicants will be physically capable of performing the essential functions of the apprenticeship program, with or without a reasonable accommodation, and without posing a direct threat to the health and safety of the individual or others.

Testing: NONE

Other: Upon application to the Program, an applicant must demonstrate that he/she has access to reliable transportation. For purposes of this requirement, the term reliable transportation shall mean any form of

WESTERN STATES BOILERMAKERS APPRENTICESHIP COMMITTEE

transportation that permits the apprentice to attend work and any required classroom instruction held in the geographic jurisdiction of the Program.

OPTIONAL ADDITIONAL QUALIFICATION(S): Applicants that have welding experience and/or training and/or Boilermaker Field Construction previous work experience will have priority selection over those with no welding qualifications or training or work experience. Applicants must provide copies of proof of the additional qualifications [Qualifications, Certifications, Welding Diploma, Official Letter/Report of Hours, etc.] when making application.

READMITTED APPRENTICES: If an apprentice is cancelled, the cancelled apprentice may reapply using the regular application process a maximum of one time only. If an apprentice is cancelled after their probationary period and uses the one time readmitted application process they must include a letter of recommendation from a Union Representative or Contractor Representative.

III. CONDUCT OF PROGRAM UNDER WASHINGTON EQUAL EMPLOYMENT OPPORTUNITY PLAN:

Sponsors with five (5) or more apprentices must adopt an Equal Employment Opportunity (EEO) Plan and Selection Procedures (see Part D of chapter 296-05 WAC and 29 CFR Part 30).

The recruitment, selection, employment and training of apprentices during their apprenticeship shall be without discrimination because of race, sex, color, religion, creed, national origin, age, sexual orientation, marital status, veteran or military status, the presence of a disability or any other characteristic protected by law. The sponsor shall take positive action to provide equal opportunity in apprenticeship and will operate the apprenticeship program as required by the rules of the Washington State Apprenticeship and Training Council.

A. Selection Procedures:

- 1. Applications shall be accepted year round but issued at least once a month at the local level by a Local representative. All persons requesting an application shall have one made available upon such request from one of the following locations:**

Boilermakers Local #242 6404 N. Pittsburg Spokane, WA 99217	Boilermakers Local #502 16621 110th Ave East Puyallup, WA 98374-9503
----------------------------------------------------------------------------	-------------------------------------------------------------------------------------

- 2. All applications shall be identical in form and requirements. The application form shall be numbered in sequence corresponding with the number appearing on the applicant log so that all applications can be accounted for.**

WESTERN STATES BOILERMAKERS APPRENTICESHIP COMMITTEE

Columns will be provided on the applicant log to show race/ethnic and gender identification and the progress by dates and final disposition of each application.

3. Before completing the application, each applicant will be required to read the Apprenticeship Standards and will be informed of the basic qualifications and documents needed to complete the application.
4. Receipt of the properly completed application form, along with required supporting documents, if applicable, by the Western States Apprenticeship office shall constitute the completed application. Applications not returned within 60 days of the issue date will be considered invalid and the individual will have to reapply.
5. The Area Apprenticeship office will review the applications received from applicants, checking for completeness and notifying applicant of accepted completed application. Applicants deficient in one or more qualifications or requirements will be notified in writing by the Area Apprenticeship office of their disqualification. The applicant will also be notified of what is required for the application to be accepted. No further processing of the application will be taken.
6. The Applicant Log will be forwarded to the Area Coordinator who will account for all applications received by logging it onto the Applicant Log.
7. The Area Joint Apprenticeship Committee will select applicants using the Random Selection from Pool of Eligible Applicants method.
8. The random selection process shall be done electronically. The tracking software utilized by the apprenticeship program will randomly issue a draw number for each application based on the applicants' applicable group/pool.
9. The place of the selection shall be open to all applicants and the public. The names of the apprentices drawn by this method shall be posted immediately following the selection at the Area Joint Apprenticeship Committee's and Local Office place of business.
10. The Area Coordinator will send the applicants a letter informing them of their placement on the Random Selection Applicant Roster.
11. The Area Coordinator will provide the Local Committee with the final Applicant Roster based on the outcome of the random selection process.
12. As openings for the registration of new apprentices occur, applicants will be notified of selection for indenturement by certified mail. It shall be the responsibility of the applicant to keep the Local Area Committee and Area Apprenticeship office informed of their current mailing address and phone number.

WESTERN STATES BOILERMAKERS APPRENTICESHIP COMMITTEE

- 13. Only one certified notice will be mailed. If the applicant does not show up to the indenturement on the date and time indicated on the certified notice, the applicant's name will be removed from the list.**
- 14. Qualified applicants remaining on a preceding eligibility pool will automatically be carried forward on the new eligibility pool and placed above those from the current pool of eligibles for a period of two (2) years, unless the applicant has been removed from the list by their own written request or following failure to respond to an apprentice opening. Applicants who were not placed during two (2) year period that were in the eligibility pool will be required to reapply.**
- 15. Duplicate copies of the original documents must be submitted as they will be kept by the Area Apprenticeship Committee.**

Selection of apprentices under this program is made on the basis of qualifications alone, as set forth in the approved selection procedures of the Boilermakers National Joint Apprenticeship Board for the Boilermaker Trade. All applications are afforded equal opportunity without regard to race, religion, color, sex, national origin, age or disability.

- 16. Applicants will pass a screen for the current illegal use of drugs on acceptance into the program within forty-eight (48) hours after signing the apprenticeship agreement and prior to being employed. Applicants shall be subject to subsequent tests for drug/alcohol use on an annual, random, reasonable suspicion, and per cause basis thereafter.**

B. Equal Employment Opportunity Plan:

The Area Coordinator, Area Committee members, and Local Committee will undertake positive recruitment activities which include:

- 1. Advertisements and announcements of employment opportunities will be posted with the local Work Source Centers.**
- 2. Grant credit for previous trade experience or trade-related courses for all applicants equally.**
- 3. Promote the Boilermakers Western States Joint Apprenticeship Committee (WSJAC) through distribution of program literature and on apprenticeship websites.**
- 4. Seek the voluntary participation of both women and minority apprentices and journey workers in recruitment efforts undertaken by the Local.**
- 5. Participate in job fairs, career fairs and similar events to promote apprenticeship training, provide program admission requirements and sources of applications, and the program's EEO Policies.**

WESTERN STATES BOILERMAKERS APPRENTICESHIP COMMITTEE

The Area Joint Apprenticeship Committee shall review its affirmative action plan, including goals and timetable for each local area, annually and make appropriate changes to the extent necessary to obtain maximum effectiveness.

The Area Joint Apprenticeship Committee will make an annual review of its current AAP and its overall effectiveness and institute any revisions or modifications warranted. The review will analyze (independently and collectively) the affirmative action steps taken by the Area Joint Apprenticeship Committee for evaluating the positive impact, as well as the adverse impact in the areas of outreach and recruitment, selection, employment, and training. They will work diligently to identify the cause and effect that result from their affirmative action measures. The Area Joint Apprenticeship Committee will continually monitor these processes in order to identify the need for a new affirmative action effort and/or deletion of ineffective existing activity(ies). All changes to the AAP must be submitted to the Registration Agency for approval. The Area Joint Apprenticeship Committee will continually monitor the participation rates of minorities and women in the apprenticeship program in an effort to identify any type of underutilization. If underutilization exists, correction action will be immediately implemented. The goals and timetables also will be reviewed periodically as determined by the Registration Agency and updated where necessary.

Discrimination Complaints:

Any apprentice or applicant for apprenticeship who believes they have been discriminated against may file a complaint (WAC 296-05-443).

IV. TERM OF APPRENTICESHIP:

The term of apprenticeship for an individual apprentice may be measured through the completion of the industry standard for on-the-job learning (at least two thousand hours) (time-based approach), the attainment of competency (competency-based approach), or a blend of the time-based and competency-based approaches (hybrid approach) [WAC 296-05-315].

The term of apprenticeship shall be a minimum of 6,000 hours of reasonable continuous employment over a four-year period.

V. INITIAL PROBATIONARY PERIOD:

An initial probationary period applies to all apprentices, unless the apprentice has transferred from another program. During an initial probationary period, an apprentice can be discharged without appeal rights. An initial probationary period is stated in hours or competency steps of employment. The initial probationary period is not reduced by advanced credit or standing. During an initial probationary period, apprentices receive full credit for hours and competency steps toward completion of their apprenticeship. Transferred apprentices are not subject to additional initial probationary periods [WAC 296-05-003].

WESTERN STATES BOILERMAKERS APPRENTICESHIP COMMITTEE

The initial probationary period is [WAC 296-05-316(22)]:

- A. the period following the apprentice's registration into the program. An initial probationary period must not be longer than twenty percent of the term of the entire apprenticeship, or longer than a year from the date the apprenticeship is registered. The WSATC can grant exemptions for longer initial probationary period if required by law.
- B. the period in which the WSATC or the supervisor of apprenticeship may terminate an apprenticeship agreement at the written request by any affected party. The sponsor or the apprentice may terminate the agreement without a hearing or stated cause. An appeal process is not available to apprentices in their initial probationary period.
 - 1. **The initial probationary period shall not exceed the first 1500 hours of reasonable continuous employment or one (1) year, whichever is shorter.**

VI. RATIO OF APPRENTICES TO JOURNEY LEVEL WORKERS:

Supervision is the necessary education, assistance, and control provided by a journey-level employee on the same job site at least seventy-five percent of each working day, unless otherwise approved by the WSATC. Sponsors ensure apprentices are supervised by competent, qualified journey-level employees. Journey level-employees are responsible for the work apprentices perform, in order to promote the safety, health, and education of the apprentice.

- A. The journey-level employee must be of the same apprenticeable occupation as the apprentice they are supervising unless otherwise allowed by the Revised Code of Washington (RCW) or the Washington Administrative Code (WAC) and approved by WSATC.
- B. The numeric ratio of apprentices to journey-level employees may not exceed one apprentice per journey-level worker [WAC 296-05-316(5)].
- C. Apprentices will work the same hours as journey-level workers, except when such hours may interfere with related/supplemental instruction.
- D. Any variance to the rules and/or policies stated in this section must be approved by the WSATC.
- E. The ratio must be described in a specific and clear manner, as to the application in terms of job site, work, department or plant:

The ratio of apprentices shall be one (1) apprentice to be employed on each job of three (3) journey-level workers.

WESTERN STATES BOILERMAKERS APPRENTICESHIP COMMITTEE

VII. APPRENTICE WAGES AND WAGE PROGRESSION:

- A. Apprentices must be paid at least Washington’s minimum wage, unless a local ordinance or a collective bargaining agreement require a higher wage. Apprentices must be paid according to a progressively increasing wage scale. The wage scale for apprentices is based on the specified journey-level wage for their occupation. Wage increases are based on hours worked or competencies attained. The sponsor determines wage increases. Sponsors must submit the journey-level wage at least annually or whenever changed to the department as an addendum to these standards. Journey-level wage reports may be submitted on a form provided by the department. Apprentices and others should contact the sponsor or the Department for the most recent Journey-level wage rate.
- B. Sponsors can grant advanced standing, and grant a wage increase, when apprentices demonstrate abilities and mastery of their occupation. When advanced standing is granted, the sponsor notifies the employer/training agent of the wage increase the apprenticeship program standard requires.

C. Boilermaker (Field Construction and Repair):

Before an apprentice is advanced to the next segment of training or to journey worker status, the AJAC shall evaluate all progress to determine whether advancement has been earned by satisfactory on-the-job learning and in related instruction classes. In determining whether satisfactory progress has been made, the AJAC shall be guided by the work experience and related instruction records and reports.

Step	Hour Range or Competency Step	Percentage of journey-level wage rate*
1	0000 - 1000 hours	70%
2	1001 - 2000 hours	75%
3	2001 - 3000 hours	80%
4	3001 - 4000 hours	85%
5	4001 - 5000 hours	90%
6	5001 - 6000 hours	95%

VIII. WORK PROCESSES:

The apprentice shall receive on the job instruction and work experience as is necessary to become a qualified journey-level worker versed in the theory and practice of the occupation covered by these Standards. The following is a condensed schedule of work experience, which every apprentice shall follow as closely as conditions will permit. The following work process descriptions pertain to the occupation being defined.

RSI must be provided in safe and healthy conditions as required by the Washington Industrial Safety and Health Act and applicable federal and state regulations.

Hours spend in RSI are reported to L&I each quarter. Reports must show which hours are unpaid and supervised by a competent instructor versus all other hours (paid and/or unsupervised) for industrial insurance purposes.

For purposes of coverage under the Industrial Insurance Act, the WSATC is an employer and the apprentice is an employee when an unpaid, supervised apprentice is injured while under the direction of a competent instructor and participating in RSI activities.

If apprentices do not attend required RSI, they may be subject to disciplinary action by the sponsor.
